# Certificate of Genetic Profile

**GLOBAL SUPPLIES**  
www.globalsupplies.co.za

**ONE-STOP Ranching Service**

It is important to note that only mitochondrial genes have been used in this analysis and therefore only the dam's sub-species can be verified. Mitochondrial DNA is only inherited from the dam. It is not possible to say if the animal is a hybrid based on the data available. It is the sender's responsibility to ensure the correctness of the information accompanying the sent samples. Inqaba Biotechnical Industries (Pty) Ltd. warrants this test results to be accurate for the sample obtained from this animal as identified on this form. In no event shall Inqaba Biotechnical Industries (Pty) Ltd. be liable for indirect, substantial or secondary damages of any kind.
